UNDERFEEDING AND GROWTH.

you permanently runt an animal by underfeeding it? I presume every farmer has an answer to the question. He knows because some colt or calf or pig in his barnyard was runted that way. However, the scientists are not so well agreed. Aron contended that if you starved a young animal severely might fatten him satisfactorily afterward, but you could never feed him enough to bring him up to full height, length and breadth.

Osborne and Mendel did not agree with Aron. They contended that the young animal that had been starved could fed up so that it would attain its full stature. They write: "It is now reasonable to ask whether the capacity to grow can ever be lost until it is ex-

They say: "In no case in which the underfeeding from birth was prolonged beyond three weeks did the est subject upon ample refeeding reach the maximum body weight of the normal controls in the same litter.

"Applying the conclusions of Aron, Jackson and Stewart to the human animal they would mean that if young children are very grossly underfed a long time they can never reach the neight or develop the frame that their inherited tendencies would have given be noticed, if this conclusion is correct, that the maturing generation in Belgium, Germany, Serbia, Russia and the overrun parts of France and Italy are shorter and less broad than their

In 1910 Aron found that when pupples were underfed for several months the skeleton and brain continued to grow, even though there was no increase in The fat and muscles were exhausted in order to supply material for the bones. Other observers noted the same phenomenon in babies.

The bones, the eyeballs, the brain and the spinal cord have a most insistent tendency to grow in spite of insufficient food. The lungs, the muscles and the skin have weaker growth tendencies and are more easily "runted" by prolonged starving. These last observations mean that it

TEETH OF LAW FOR TAX DODGERS.

Smietanka Announces Policy Adopted by Bureau.

The teeth of the law for the tax dodger and violator, and the aid of every lawful agency for the voluntary taxpayer," will be the policy of Collector Julius F. Smietanka of the internal revenue bureau. Today Mr. Smietanka begins a campaign to educate Chicagoans as to the provisions of the income tax bill which provides income tax returns must be filed by March 15. Mr. Smietanka has obtained a ruling on what the policy of the bureau will be toward those who attempt to evade taxation, from Commissioner Daniel C. Roper, head of the bureau at Washington.

This ruling is a frank statement defining the policy to be followed in every collector's district.

Penalties Provided.

"who means to comply with the in-ternal revenue laws, fully and honestly, the bureau will extend a helping hand. Cooperation will be the watchword. These contrasts—the teeth of the law for the tax dodger and violator, and the aid of the law for the taxpayer,

will be the policy. "One of the most difficult of the many problems in tax collecting is to classify those who fail to fulfill the obligations imposed. The bureau is obliged to maintain a large staff and to use the utmost discretion in properly labeling these cases. Even handed jus tice is a heavy responsibility, and only through careful siftings can delinquents be classified.

Three Classes of Delinquency.

"There are three distinct classes of deal. First, the taxpayer who had reasonable cause, brought about by exceptional conditions beyond his control; second, the fellow who didn't look up or didn't realize his obligations; and, third, the person who willfully evades compliance with the law."

The ruling then goes on to say that in case a person is merely negligent, there will be a compromise which will entail an assessment to impress against future violations.

Concluding it says:
". . . the willing taxpayers must have the guarantee of this bureau that the laggards, the jugglers, and the violators will not escape taxation and

It is a perplexing thing to decide what cook book to recommend to those who want to know what particular one is the best for them. It is difficult to tell anybody what one book to buy, but comparatively easy to tell them what dozen books they might find

Undoubtedly the cook books that are the most nearly standard are those which were prepared for teaching the subject. There is some rhyme and reason in them. These books are not mere miscellanies, or as Mrs. Lincoln says in the old "Boston Cook Book," "mere compilations." There is some unity, some continuous illustration

Louseman Benefit Biggest of the Sort

Ever Staged Here More than \$15,000 was spent yester day by patrons, present or absent, of the Lou Houseman testimonial per-formance staged in the afternoon at the Colonial theater. The precise total cannot be stated, for further contributions are on their way from House-man's well-wishers in the more remote communities, but the figure as it stands, in the opinion of various oldest inhabitants, makes the enterprise the biggest thing of its kind ever given in

The proceeds are to be used to estab-lish the "Lou Houseman trust fund," with William A. Pinkerton as treas-

Of the latter the most favored was an impressive rendering of the balcony scene from "Romeo and Juliet," with Mitzi of "Head Over Heels" playing an impish Romeo and Rogers, as Juliet, calling in the grave diggers from Hamlet to provide a deeper cellar against the arid days to come after July 1.

Among the others you missed if you weren't there were Barney Bernard. Mile. Tavie Belge, Miss Louise Groody, Hal Skelley, Eugene Cowles, Victor Moore, Robert Emmett Keane, W. C. Fields, Frank Carter, Eddie Canbeth Brice, Will Morrissey, and Wil-

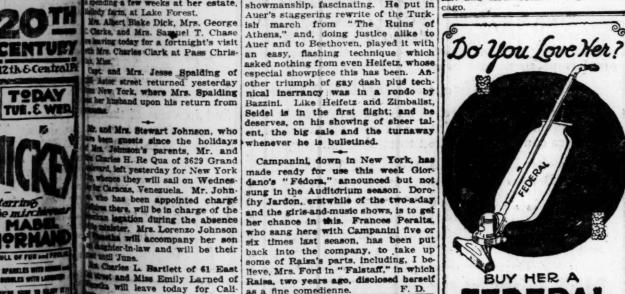

Four short plays will be perform by the Hull house players on Friday and Saturday evenings of this week, the program comprising "The Merry moon," by Jeannette Marks; "The lave with Two Faces," by Mary Car-

The first two were written for the Wish national theater and are new to Chicago, as is "The Slave with Two Faces." The Knoblock play was given at Hull house at a similar per-formance in December. CARSON PIRIE SCOTT & CO

THE February Sale of Furniture continues to affi excellent values. Announcement elsewhere in newspaper this morning. Sixth Floor, North.

PURPOSE is largely master of results. Wellfounded purpose needs little more than directed action to achieve its end. The purpose of these

February Sales

was to bring about opportunities for our patrons to supply many personal requirements as well as others for the home in the early season—and to supply these at priceadvantages without sacrificing those elements which themselves determine the advantage.

So silks, shoes, silk blouses, infants' wear, silk underwear for women, silk petticoats, girls' colored tub frocks, and furniture, dinnerware and table stemware-all merchandise involved in the February Saleshave been brought together through master merchandising in assortments typical of the February Sales of the past on a price basis which spells genuine opportunity for our patrons.

Thus has purpose been achieved and thus are the advantages of this store's merchandising again proved by results in concrete.

French Room Millinery The Distinctive in Tailored Modes

The fine art of millinery which calculates to a degree the sweep of a line in harmony with the garniture of a hat seems to be at its best in these hats decreed for wear with street costumes.

The bill which brings the fight to let down the bars to a crisis and permits certain kinds of nursing by persons not graudates of training schools was finally whipped into shape yesterday under the direction of Dr. M. L. Harris, president of the Illinois Hospital

The measure protects graduate nurses, as does the present law, and makes it an offense for any person to pose as a graduate nurse unless entitled to do so. ter I receive many written queries that involve some feature of the play ing end of the game, or merely refer to, the method of procedure adopted by the umpire in conducting his game. I shall try to answer a few of these queries. I am picking out several that are asked time and again. Every now and then the newspaper

Many people think the fine on major league players is assessed by the um-pires. Others have their doubts. Major league umpires have nothing to do with the levying of the fine. That punishment is meted out by

the president of the league; who fixes the amount after he receives the umpire's report. In some cases the um-pire may suggest that a stiff fine is coming to a player as well as a sus-pension, but the amount of fine and end of the league.

Service-a Yardstick

'S ERVICE is the yardstick by which men and institutions are measured." Only by service is growth possible, and progress marked. Animated always with the ideal of Service, this Store has developed, from a small building at the corner of State and Washington Streets, to occupy more than the entire block-from a business founded on selling "yard goods" and other allied merchandise, to one which is noted for its world-wide resources in presenting the latest authoritative word in all clothing needs for men and women and children, and in outfitting homes completely.

The Semi-Annual Sales—now in progress—are examples of Constructive Merchandising which is part of our program of Service. The success with which they are meeting is a measure of our patrons' appreciation.

Silver Room · Washington Street at Wabash Avenue

Often It Is Surprising

to find what a trip to the Cleaning Desk does for one's clothes. The suits and coats which have been subjected to the splashes and mud spots of rainy streets can attain a Springtime freshness very often by a thorough cleaning. And the light frock (or suit or coat or skirt) which has lost its beauty often can be made to yield months of satisfactory service when properly dyed a dark shade.

If you will telephone Private Exchange One, Local 343, a motor will be dispatched for your things. Sixth Floor, Wabash Avenue.

Somebody said-"A Poor Corset Could Spoil the Figure of Venus'

and there's many a figure which needs but kindly fitting to approach to some degree of the ancient Grecian grace and beauty. Corseting the hard-tocorset is one of the specialties of the Custom Apparel Section, on the Ninth Floor. The little Corset Room makes a delightful place to visit any day.

Awls and Saws and Springtime

THE very first "open weather' awakens in the home-dweller's heart the desire to putter about his house and grounds, repairing the loose boards, re-enforcing fences, adding an encouraging touch to the wood and stone and from which have sheltered him from the blasts of Winter. And he needs good Tools! There's a very interesting display just now in some cases on the Ninth Floor, where conner wire and where copper wire, and pliers, pincers, and hammers, house numbers, door stops, and other Hard-ware encourage in a man the Springtime urge to make things "ship-shape." Ninth Floor, North.

Suits Are Very Important in the Spring Theme

THEY are most beautifully tailored-for em-THEY are most beautifully tailored—for enphasis has been placed on this—and they
take navy blue tricotine as prime favorite. But
whether to choose a vestee style (there's a charming Suit which boasts a beige vestee embroidered with navy blue squares) or whether one
shall be true to the tailored belted jacket, is a matter for personal whim to decide. An exceptionally well-tailored Suit with little had-moon stitchings on its four pockets, a gun-metal buckled belt and rows of buttons outlining the side seams, is \$87.50. The Furs of Spring

CHARM is so pronouncedly in-troduced by the soft, flattering foil of Furs that their place in a woman's wardrobe this Spring is no longer questioned. The new single and double skin Sable Scarfs enjoy perhaps first place at this moment. There is a display of these, made in the new mode, in our own workrooms. Sixth Floor, Wabash Avenue.
